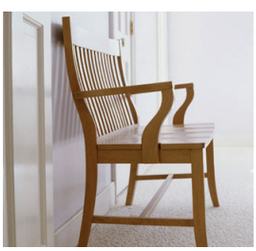
Where everything comes together



Multi-Sided

Gas Fireplaces

HNG-1034X-0208.indd 1 2/22/2008 1:28:31 PM

A different angle & another point of view.

Gateway™ (cover and top) Shown with custom finishing

Electric ember bed provides a warm glow with or without flame.

Pier

You can see a fireplace as simply the wonderful source of warmth and renewal that it is, but look again. A multi-sided fireplace can also be a room divider, a window, or a dramatic architectural element.

- In popular, flexible sizes—along with a variety of models and options—our multi-sided family is ideal for new construction, renovations and additions alike.
- Pier, See-Through and Corner vent off either the side or top, inspiring creative installation and design ideas.
- Pier, See-Through, Corner and Passage offer a direct vent, completely sealed system that draws air for combustion from the outdoors only and expels any combustion by-products outside, maintaining clean indoor air.
- Standard electric ember beds in the Pier, See-Through, Corner and Passage provide year-round enjoyment of the fireplace, with or without flame.

Multi-Sided

There's more than one way to look at a gas fireplace.

Gateway

Gateway goes where other multi-sided fireplaces might not. Our patented draft-assist technology combined with its smaller size means Gateway can be installed virtually anywhere.

Pier

The Pier provides three-sided viewing, and it works perfectly as a room divider or even the base of a bar.

Pier Shown with Esteem front, custom bar top and Cultured Stone Country Ledgestone.

See-Through

The See-Through brings two rooms together while letting you design each side differently.

See-Through Shown with Classic front and custom black granite.

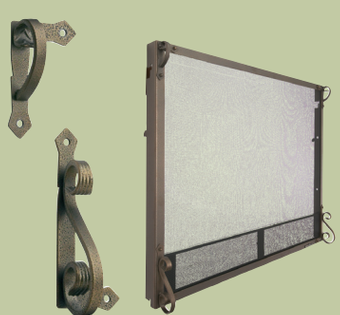
Corner

Put a dark, dull corner to better use. This multi-sided model adds light and warmth to any corner, left or right.

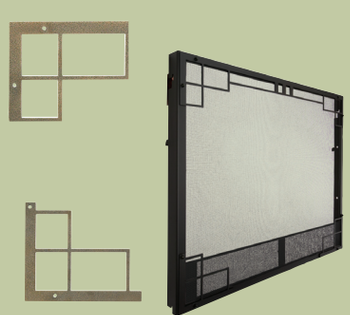
Corner Shown with Classic front and end panel, custom beige marble and custom bar top.

Firescreen Companions

The Firescreen front can be enjoyed unadorned, or you can purchase one of these two Firescreen companions to attach to the front's exterior, adding a distinctive touch of corner detail. Available in black, bronze or pewter to match or contrast with the front.



Carriage Hill Firescreen companions shown on Firescreen front (DF-6-FS)



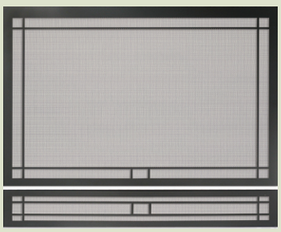
Prairie Ridge Firescreen companions shown on Firescreen front (DF-6-FS)

Decorative Fronts available for Pier, See-Through and Corner

Basic Front
DF-6000

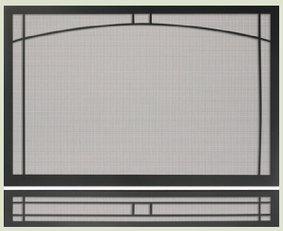
Black only

Classic Front
DF-Classic-B



Black only

Esteem Front
DF-Esteem-B

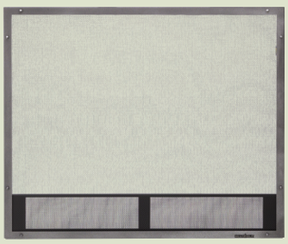


Black only

End panels for Pier and Corner models (DF-6-EP, DF-CLASSIC-EP-B, DF-ESTEEM-EP-B) must be ordered separately.

Decorative Fronts available for See-Through

Firescreen Front
DF-6-FS



Accepts interchangeable decorative panels and Firescreen companions.

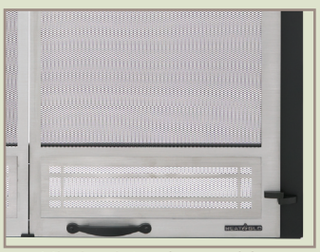
Essence Doors
DF-6-Essence

Accepts interchangeable decorative panels.

Options, options & more options

With multiple fronts and finishes, plus interchangeable panels and companions, you define and design your own style.

Interchangeable Decorative Panels



Mission interchangeable decorative panel shown attached to Essence door.

Essence doors and Firescreen fronts accept these three interchangeable panels. Buy one or several, they're easy to change. Think of them as decorating accessories for different seasons or events. Each is available in five finishes to match or contrast with fronts.

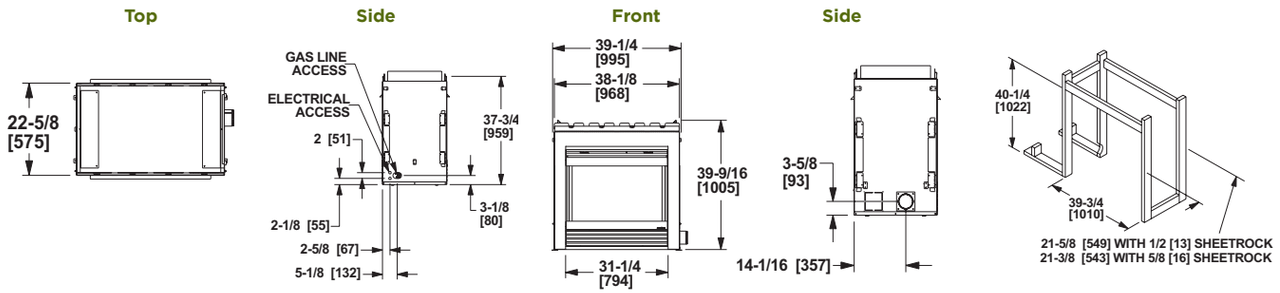
GATEWAY



Dimensions above are in inches and millimeters. Reference dimensions only. We recommend measuring individual units at installation. Assumes the use of 1/2" drywall. NOTE: Non-combustible material is allowed over this dimension. Make sure you do NOT cover the decorative door opening.

Refer to installation manual for detailed specifications on installing this product. Heat & Glo reserves the right to update units periodically. The flame and ember appearance may vary based on the type of fuel burned and the venting configuration used. Pictures in this brochure are not a true representation of the fireplace, flames and/or finishes.

Healthy Hearth

Our direct vent fireplaces will not alter the quality of indoor room air in any way. They utilize a sealed combustion chamber that draws in fresh air from outdoors and discards all combustion by-products back outside.

Limited Lifetime Warranty

The strongest in the industry, Heat & Glo guarantees protection for all gas units, including a lifetime warranty of the most important aspects: fiber logs, stainless steel burner, firebox and heat exchanger.

IntelliFire®

Our exclusive, state-of-the-art IntelliFire ignition system reduces gas consumption and thermogenerator wear by providing a pilot flame only when needed. It also supplies a back-up battery system to run the fireplace during a power outage.
